  - Build bridge on EAST SHORE at SILO (if time permits)Trail work to start at 9am.
- **HORSE ENCOUNTERS** - RHOE reported she was riding on RED SHORE at the bridges and had a horse encounter. Horse fell down into water and did damage on bridges/trails. Horse could have been injured.

FOHR wants to replace “NOT RECOMMENDED FOR HORSES” signs with “HORSES NOT ALLOWED by authority of City of Oak Ridge”. Keep horses on double track trails like LAKE, MIDDLE, and POWER CUT.

- **RON ENGLERT** - proposed making a new trail that follows the contrail, where MIDDLE starts to drop off to POWER CUT. Trail would be close to 2 miles. Ron said it would open up a lot of options. He’s walked most of the trail. Brain Hahn, who is building trails at Windrock, said we could use his trail cutting machine for a donation. Group agreed to do a winter walk to check out the feasibility, before next meeting in January 2009.
- **HOT RACE** - Group discussed whether releasing race course a week before or a month before will hurt the trails. Consensus was later is better. Lois will talk to John Baker.
- **Meeting was adjourned at 9:10pm.**
- **Next Meeting is Thursday, Jan. 8th, 2009 at 7:30pm.**
